#### DEMOCRATS AGREED.

It is interesting to The Times to note that several esteemed contemporaries. which only a few days ago were sounding the praises of Mr. Bryan, and exploiting him as the greatest living Democrat and insisting that the true test of Democracy was loyalty to Mr. Bryan and belief in the financial doctrine which he preached, are new singing quite another song. First among the foremost of these newspapers is our esteemed neighbor, the Dispatch, and we have been recently employing some of our spare moments in looking through the files of the Dispatch of 1896, and reading in the edirorial columns its high tributes to Bry an and free silver and its denuncia tion of all Democrats who did not subscribe to such sentiments. But the Dispatch now says that the free-silver issue is dead, it hopes that Mr. Bryan will never again be the nominee of the party, and it thinks that that distinguished gentleman "should proclaim without delay his purpose to retire irrevocably from the candidacy for leadership and take in the next conflict a lieutenant's part."

How treasonable that would have been regarded only a few years ago? But if the leading Democratic papers of the country had taken that stand before the last National Democratic Convention was held, if they had then come out boldly and said what they are now saying-that free silver was an impossible issue and that Mr. Bryan was not the man to lead the partythe convention at Kansas City would probably have taken a very different turn. A genuine Democratic platform would in all probability have been adopted, David B. Hill would have been nominated by acclamation and the party would have had a splendid chance to beat McKinley and Hanna. There were some Democratic newspapers which took that view. They insisted that it was suicidal for the Democratic party to go into the fight again with Bryan and free silver, but they were sneered at and denounced as traitors to the party and aiders of the Republicans.

In recalling these facts we do not do so for the purpose of glorifying those Democratic newspapers and leaders that have not changed their views, nor of chiding those who have changed. We desire simply to emphasize the fact that there has been a great change in public sentiment within the past few years and that there is now, so far as we can discover, no substantial difference between Democrats. It seems to us that they are more nearly in accord than they have been for ten years, and there ought to be no difficulty whatever in reuniting the party and bringing together the mighty hosts of Democracy in this country.

As for Mr. Bryan, we cannot see that he is called upon to come out and make a declaration that he will not be a candidate four years hence. If he should make such a declaration, it would have very little effect. Those who wanted to believe it would believe ft, and those who did not want to believe it would not believe it, and there the matter would stand. Mr. Bryan cannot say what he will do four years hence. He may change his views as others have done and show himself in the meantime to be a great Democrat and the "logical candidate" and the man of all others to lead the party to victory. Who knows? Strange things happen in politics, as we have just pointed out, and it would be idle for Mr. Bryan or any other party man to come out at this time and say what he will do or what he will not do in the campaign of 1904.

We sometimes have very grave doubts as to whether or not Mr. Bryan wanted to be the party's candidate last year. This may seem startling to some, but it is not, when you come to think of M. altogether unreasonable.

Mr. Bryan must have known, at any rate be was so advised by party, lead
man in this city who is willing to depose and say that the Senator is terribly afraid lest his constituents get an idea that he approves of the use of such luxurious and extravagant things as a sleep ing-car.

"I had a very pleasant chai with Till-man until we reached the northern boundary of South Carolina," said this gendary of South Carolina," said this gendary of South Carolina, and the senator is terribly afraid lest his constituents get an idea that he approves of the use of such luxurious and extravagant things as a sleep ing-car.

"I had a very pleasant chai with Till-man until we reached the northern boundary of south carolina," and the such luxurious and that the Sonator is terribly and the such luxurious and that the Sonator is terrible.

"I had a very pleasant chai with Till-man until we reached the northern boun 

ers, that it was next to impossible for him to win in 1900 on a free-silver platform and no man likes to lead a forlorn hope. When the convention assembled at Kansas Olty, the great majority of delegates were disposed to drop free silver, and Mr. Bryan was urged to consent for this to be done. But he positively declined to do so. He said to the convention that he would not be the nominee unless there was a distinct and emphatic declaration in favor of the free and unlimited and independent coinage of silver at the ratio of 16 to 1. Is it not plausible that Mr. Bryan took this stand in order to force the convention to put him aside and nominate some other man? Suppose the convention had taken that course. Mr. Bryan would have been lionized as the man who declined the greatest honor in the gift of the Democratic party, because he was not willing to sacrifice his principles, and if the nominee of the convention had been defeated, Mr. Bryan would have had everything his own way four years hence.

It may be argued, on the other hand. that if he did not want to run he could very easily have retired from the race, but if he had retired without reason he would have been accused by many of his friends of deserting them in their hour of need and of being afraid. The case would have been altogether different if he had retired because the party refused to give him such a platform as he desired. But when the convention permitted itself to be dominated by Mr. Bryan, and when " it adopted the platform which he dictated, there was nothing else to do but to run. He did run, and he was most inglorlously defeated, as he knew that he would be, and so we are inclined to believe that Mr. Bryan made that fight against his will.

#### REASSURING.

Indications are that the forthcoming Constitutional Convention will be made up of the very best men from the several communities of the State. The people generally are putting aside their prejudices and personal preferences and are going in for the very best material. There is no lack of good material in Virginia, and it is practically all available. The people have the most distinguished fellowcitizens to choose from and all signs now point to the fact that the best will be selected.

This is encouraging and reassuring. It is a serious thing to wipe out the organic law of the State and write it anew. It is a difficult task to make a Constitution for Virginia and the people, we apprehend, did not fully realize what it all meant until they were brought face to face with the question. But if the best of Virginia's statesmen be brought together in convention they will do as well for the State as any convention of the past. The interests of Virginia are always safe in the hands of her best and truest sons, and of such, we now feel assured, the Constitutional Convention will be com-

The impression prevailed in England, when imports of live cattle and sheep from South America were prohibited, that values would, in consequence, be greatly enhanced, but the fear has not been realized. According to the London Times the shortage since the beginning of the year of cattle from Argentina, 15,820 head, has been more than made good by creased imports from the United States of 16,936 head. "Nothing succeeds like success." We are enjoying the greatest prosperity that we have ever known, and everything seems now to favor us. South America's loss is our gain.

#### A Protest.

Editor of The Times: Sir,-I have read with much interest the action of the Central Trades and Labor Council in calling on the several candidates for election to the coming Constitutional Convention to express their opinions on various questions proposed, have read the replies thereto. allow a private citizen, belonging to no union or combination, to express the opinion that the demands of this Trades and Labor Union are unjustified. They have the same rights, under the law, as every one else has—no more, no less. They evi-dently seek to elect men who will embody in this Constitution acts especially framed for their benefit. Are they the only people? Is a candi-

date dependent wholly on their vote? am emphatically the friend of the workingman, the artizan, the laborer, for I am one of them, but are demands such as these calculated to win friends? I believe in free speech. I believe in an un-hampered delegation. All of the candidates are well known. All good, and unless we can trust to a candidate's good sense and judgment we should not send him to the convention. I protest against putting a collar on any man by any order or organimost the entire people, and it will be no difficult matter to select men whose in-terest is so closely identified with that of the whole people as to make them watch ful of that interest. This convention should be above political clap trap. Let's send men and not mere political time servers. We want men of sense, penetration and long-headed wisdom. Let the people of Richmond, irrespective of organizations Richmond, irrespective of organizations or politics, vote for men of long-tried principle, intelligence and uprightness; conservative men, who will be swayed by no clamor, but who will do the right, letting the "chips fly in whose eyes they may." The day of whip and spur has passed, no matter by whom wielded, and thank God it is so. Let us be men and stand for good government under a good constitution with special privileges for none.

In concluding Ar. Johnson spoke of the power of the press, and the future of the church, which, he said, is entering on a church, which, he said, is entering on a new and larger mission of usefulness, laying its lines to meet the changed conditions which are confronting us at the beginning of the new century. "The church in the future will be all that it has been to the world in the past," he said, "but it will be more. It will be the center of social and intellectual as well as spiritual life. The preacher of the future will do more to help men and woture will do more to help men and wo-men in every-day life." Mr. Johnson al-so said he expected to see the time come when it will be as disgraceful to fight a duel in any part of Europe as it is in this country; when lynching will be rec-ognized as a crime against law and or-der from Maine to Texas; when men will Insist on enacting just laws and will demand their prompt execution; when it will be as great a crime to steal a vote as to steal a dollar; when men who are employed by the Government will work as faithfully as men who work for individuals; when a dollar received from the Government without corresponding value being given will be a tainted dollar and spurned by the mun that now stretches eagerly forth to grasp it. "These great changes," he said, "must come about through the blessed influences of our religion, through the efforts of our great insist on enacting just laws and will de ligion, through the efforts of our great religious leaders, through our schools and our school-books, and the press of the day, both religious and secular. \* \* 4 If what has been spoken here to-night if what has been spoken here to-night shall give an impetus to the influences which are tending to develop our people, the object of this gathering will be ac-complished." ## ASSOCIATION CLOSES ITS WORK

Papers Read, Officers Chosen and Other Business Transacted.

The sessions of the association closed yesterday afternoon shortly before two clock. In the evening the members enjoyed a ride over the city, free transportation being furnished by the Richmond Passenger and Power Company. To-day there will be an excursion to Old Point Comfort.

Many very valuable and interesting papers were read yesterday. Among them were "Ownership of Baptist Papers," by Revs. J. W. Bailey and J. J. Van Ness; "The Value of the Paper in the Church," by Dr. A. J. S. Thomas; "The Value of the Paper in the Home," by Dr. A. J. Rowland; "The Number and Personnel of Baptist Papers," by Dr. T. T. Eaton; "Some Modern Difficulties in Denomina-tional Journalism," by Dr. R. H. Pitt; "The Paper and the Pastor," by Revs.

J. D. Williams and R. M. Boone.

The reading of papers was followed by a business session. Officers were elected as follows: President, Dr. T. T. Eaton, editor of the Western Recorder, of Louisville; Vice-President, Rev. T. J. Balley, editor of The Baptist, Jackson, Miss.; Secretary and Treasurer, Dr. E. E. Folk. editor of the Baptist and Reflector. The Executive Committee consists of the president and secretary and Rev. J. J. Van Noss of Van Leville. Van Ness, of Nashville, and Rev. J. W. Bailey, of Raleigh. The arrangements for the next meeting-place were left in the hands of the Executive Committee. Charleston, S. C., and Savannah, Ga., have been mentioned.

The following resolutions were offered and adopted:
"Resolved, That a committee be appointed to prepare an address to the pastors of Baptist churches in the Southern Baptist Convention, registering

Southern Baptist Convention, registering therein our appreciation of their help-fulness heretofore, and request that at an early date they make a special effort, in the way that shall seem to tifem best, to increase the circulation of our Baptist papers.

"Resolved, That the several State conventions or reperal associations be ventions or general associations be requested to set apart one hour in their annual deliberations for the considera-

tion of the claims and the needs of denominational papers." denominational papers."

The committee was appointed by the Chair as follows: Revs. J. W. Bailey, J. N. Prestridge and R. M. Boone.

Dr. J. N. Prestridge moved that tile Association adopt a resolution suggesting that the Southern Baptist papers adopt the use of the nost-office received. adopt the use of the post-office receipts

adopt the use of the post-order receipts in giving assurance of their circulation. The matter was discussed at some length and was finally laid on the table. The matter of extending the bounds of the Association, so as to include the northern papers, was brought to the attention of the Association by Dr. E. C. Folk. The question was discussed, and was finally referred to the Executive Committee, with the request that it present a conclusion at the next meeting. The northern editors present were asked to present the matter to their

## CARNEGIE GRATIFIED.

Telegram from Pittsburg Workmen Gave Him Pleasure. (By Associated Press.)

SOUTHAMPTON, March 21.-Andrew Carnegle arrived from New York on the American liner St. Louis at a late hour last night. Mr. Carnegie expressed sur-prise that his donation for the benefit of the New York libraries had caused anything of a sensation. Of the many cablegrams received upon

his arrival one was from Mayor Van Wyck, of New York, and one from the workingmen of Pittsburg, conveying thanks for the recent large donations. thanks for the recent large donations. The cablegram from the workingmen of Pittsburg evidently gave Mr. Carnegie the greater satisfaction.

Questioned concerning the Sunday opening of the libraries, Mr. Carnegie said:

"I simply desire that the people of New York follow thei, own wishes as to the use of these institutions. Whatever they determine will be quite satisfactory to When questioned in regard to the suggested mayoralty candidacy, Mr. Carnegie pooh-poohed any aspirations in that

"I will say, however," continued the millionaire, "that New York treats her public men shamefully. They are not half as bad as they are painted. It is a great city, and you will have to go a long

ways to find a better one."
Mr. Carnegie avoided the Southampton check hunters by remaining on the ship check hunters by remaining on the sum until the last moment before the train started, when he jumped into a reserved compartment and started for London before he was recognized by the crowd.

## TWO WERE KILLED.

Double-Hender Freight Ran Into Open Switch With Dire Result.

(Special Dispatch to The Times.)

TAZEWELL. VA., March 21.—This morning about 1:30 o'clock, at Pisgah, about three miles west of this place, a west-bound double-header freight train ran into an open switch on a down grade at a fair rate of speed, leaving the track and totally demoiishing two engines and one frieght car.

and totally demolishing two engines and one frieght car.

Engineer W. H. Kone and W. B. Davidson, fireman, are dead, both being horribly mashed and burned. Kone's hody remained under the engine for six hours, Conductor Ed. C. Mays was slightly cut about the face.

Kone was secretary of the Y. M. C. A. at Bluefield, and very popular with the company. Davidson was a nephew of Dr. J. H. Creckett, of this place.
